公司简介

Company Profile

江门市盈华德科技实业有限公司位于中国著名侨乡——广东省江门市，地处珠三角一小时经济圈，是粤港澳大湾区西岸城市群中心，毗邻港澳，作为粤港澳大湾区连接粤西的重要交通枢纽，水陆交通发达，国际国内物流便利。

江门市盈华德科技实业有限公司是在江门市盈德钢化玻璃制品有限公司基础上升级扩建而成。初创于2003年，专业从事钢化玻璃盖的研发和生产。公司自有土地35000平方米，建有26000平方米的生产区域、研发和办公楼。企业员工280人。年产各类盖子3300万个（硅胶玻璃盖约1200万个、不锈钢包边盖、多用盖、拉伸盖、宽边盖、异形盖、雕花盖、感温盖、不粘盖、防污盖等2100万个）。拥有全自动激光焊接机6组、自动生产线8条、硅胶注射机15台等共计168台先进生产设备。

公司技术研发中心有13名年轻实干、积极进取的技术开发人员。自主研发的设备、产品、工艺等荣获国际、国内各项专利100项，被授予“高新技术企业”、“民营科技企业”等10项荣誉和称号。公司设置有20多名的品控人员、30人的管理团队，对来料、制程、成品等全流程管控，确保产品品质和协同高效。

公司秉承“国际化、品牌化、专业化”的运营理念，始终坚持以人为本、尊重人才、鼓励创新。“诚信、品质、创新、共赢”是我们的宗旨。”成为并持续作为全球餐厨和小家电行业配套玻璃盖的领军企业“是我们的愿景。践行“成就客户、成就品牌、成就企业、成就员工”的核心价值观，认真履行社会责任。公司全部产品通过LFGB、FDA等检测。企业通过ISO9001质量体系、BSCI商业社会责任等认证。”节能减排、绿色环保、持续发展“是我们的战略方针。2018年，公司斥资千万投入光伏发电项目，有效排除电网“错峰”对生产的影响，确保订单交期。为了降本增效，2021年开始又投入近千万进行精益生产、信息数字化管理、自动化生产的不断改进。

锐意创新、笃行实干的盈华德人，精益求精，持续改进，使得企业综合实力在同行处于领先地位。盈华德是国内外众多著名品牌的优质供应商，得到了广大客户的一致好评。

Jiangmen YingHuaDe Technology Enterprise Co.,Ltd is located in Jiangmen, Guangdong, a famous hometown of overseas Chinese in China. As an important transportation hub, it only takes one hour and a half to drive to Guangzhou Airport and two hours's drive to Shenzhen Airport or Hong Kong Airport.

YingHuaDe is upgraded and expanded on the basis of Jiangmen YingDe Tempered Glass Products Co., Ltd, founded in 2003. It specializes in R&D and production of tempered glass lids. Now YingHuaDe covers an area of more than 35,000 m², with 26,000 m² of production workshop and office building. We have 280 employees including 20 QC and 30 office workers, and 6 laser auto laser welding machines, 7 glass tempering lines, 8 assembly lines for stainless steel glass lids, 15 injection machines for silicone glass lids and 2 lines of handle assembly etc. We may produce over 30 million glass lids including 20 million stainless steel glass lids and 12 million silicone glass lids per year.

YingHuaDe has 13 experienced R&D engineers, owns 100 international and domestic patents of independently developed equipments, products and processes and has been awarded over 10 honors and titles such as "High-tech Enterprise and "Private Science and Technology Enterprise".

Adhering to the business philosophy of "Internationalization, Branding, Specialization", we always respect talents and encourage innovation. "Honesty, Quality, Innovation and Win-win" is our core values. We have always earnestly fulfilled the social responsibilities. All products have already passed LFGB, FDA, CA65, REACH, RoHS tests. The enterprise have been authorized by ISO 9001 quality system certification and BSCI audit. "Green and sustainable development" is our strategic policy. In 2018, YingHuaDe invested 10 millions Yuan in photovoltaic generation projects to effectively eliminate the impact of "Staggering power consumption" on production and ensure the delivery of huge orders. In order to reduce costs and increase

efficiency, YingHuaDe keeps investing 10 millions Yuan to continuously improve the lean production, digital information management and automatic production since 2021.

"Become and continue to be a leading enterprise of glass lids for the global kitchenware and small household appliance industry" is our vision. The innovative, hard-working YingHuaDe people always remember the enterprise mission "Make achievements for the clients, brand, enterprise and employees.", keep the original intention, always continue to study and improve year by year. Now the comprehensive strength of the enterprise is in a leading position in the industry of glass lids. YingHuaDe has become a high-quality and reliable supplier for more and more worldwide famous brands like Calphalon, Tefal, WMF, Fissler, Supor etc. and highly praised by the customers.

Welcome to visit us in the near future! We are willing to establish business relationship with you on basis of equality and mutual benefit!

生产场景

Production scenario

不粘涂层，清洁更容易。

Non-stick coatings, easy to clean.

不锈钢包边部分采用高端水性无机陶瓷不沾涂层“晶韧瓷”，抗污性强（不易粘附污渍），易清洁（冲水即可），持久如新。

Stainless steel edge adopts high-end water-based inorganic ceramic non-stick coatings, which has strong stain resistance (not easy to adhere to stains), is easy to clean (just flush) and looks as good as new.

彩色涂装，提升品质，彰显个性。

Colored coatings enhance the finish quality and show off your personality.

不锈钢可以喷涂成各种颜色来配合锅体，提升产品档次，提升消费者使用体感。

不同的涂装颜色彰显个性，满足不同消费者的喜好，扩大受众范围。

Stainless steel can be coated into various colors to match the saucepans, casseroles, fry pans and woks, which improve the product grade and enhance the consumer's sense of use. Different colors show personality, and also meet the preferences of different consumers and expand the sales.

耐磨、不易刮花，寿命更长。

Wear-resistant and hard to get scratched, longer life.

硬度可高达9H，更耐磨，抗划伤。

已通过盐雾测试、烤箱测试、洗碗机测试等。

The hardness may reach as high as 9H to provide better wear and scratch resistance.

It has passed salt spray test, oven test, dishwasher test etc.

多重检测，更安全，更放心。

Multi tests to ensure the safety.

水性涂料，绿色环保，达到食品级，通过国标、FDA、LFGB 等多重检测。

经第三方权威检测机构认证的实验数据显示，抗菌抗病毒能力优秀。

The water-based food grade coating is green and eco, which has passed GB, FDA, LFGB and other multiple tests.

The experimental data assured by the authoritative test lab indicates that the non-stick coatings have excellent antibacterial effects.

镀层质量好，寿命更长，持久如新。

The perfect PVD plating assures significantly longer life. They always look as good as new.

离子镀的镀层组织致密、无针孔、无气泡、厚度均匀，甚至棱面和凹槽都可均匀镀覆，不会形成金属瘤。有高硬度、高耐磨性、很好的耐腐蚀性和化学稳定性等特点。

已通过盐雾测试、烤箱测试、洗碗机测试等。
PVD plating has compact structure, no pinholes, no bubbles and uniform thickness. Even the edges and grooves can be plated evenly without forming metal nodules. It has the characteristics of high hardness, high wear resistance, good corrosion resistance and chemical stability. It has passed salt spray test, oven test, dishwasher test etc.

微米级真空离子镀膜工艺，附着力极强。
Micron Vacuum Ion Plating provides perfect adhesion.

离子能够穿透工件表面形成一种注入基体四至五微米的扩散层。试验表明，一直拉到快要断裂时，镀层仍随基体金属一起塑性延伸，无起皮或剥落现象发生，可见附着多么牢固。

Ions can penetrate the surface of the workpiece to form a diffusion layer of 4~5 microns implanted into the substrate. The test shows that the coating still extends plastically with the base metal until it is about to break, and there is no peeling off. It can be seen how firm the adhesion is.

彩色涂装，提升品质，彰显个性。
Colored coatings enhance the finish quality and show off your personality.
